## 4

**Watch for detail**

Watch the report again and answer these questions.

1. How many dogs and instructors are training for the tests?
2. How quickly can the dogs deliver the result of the test?
3. How much sensitivity does this test have?
4. How early can the dogs recognize a passenger with Covid-19 before they have symptoms?
5. Is the dog test available to everyone at the airport?

**\*Glossary**

PCR test: the test that most people in the world are using to identify people with Covid-19.

5

## Talking point

Discuss these questions in pairs or small groups.

1. If this test really works, how much would it change our response to the Covid-19 pandemic?
2. In what other places could this test be used?
3. Can you think of any disadvantages or problems with using this test?
4. Do you think dogs enjoy working?
5. How do you think this animal is working to help people? Do you know any similar examples?
