11 Robber Chickens Out

1. Quick Reading

What is the story about?

Now read quickly to get the main idea.

PEARL RIVER, NY, USA 1 In New York, nothing is surprising anymore. A man went into a bank in a town just north of New York City. He had a plastic bag over his head. 2 He approached a teller and handed her a note. 3 The teller took a look at the note. But she couldn't make heads or tails of it. The handwriting was terrible. 4 She excused herself and went to consult with her co-workers. No one could read the note. 5 Finally, one of the clerks figured out part of it. It said, "I have a gun." 6 The clerks realized at last that the man was trying to hold up the bank. But when they looked up, the man with the bag on his head was gone. Apparently, he lost his nerve and ran away.

7 Why didn't the teller react to the plastic bag on the man's head? She said only, "I thought maybe he had a skin problem." 8 Police officers are still trying to make sense of the robber's note. "The note says he has a gun, but we have to spend more time studying the rest of it," said one officer.

Appendix D: Phrasal Verbs

I. What is a phrasal verb?

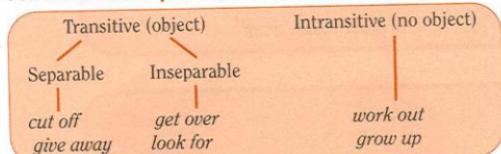

A phrasal verb is a verb + a particle.

Sylvain goes to the gym twice a week to work out.
(verb)(particle)

The woman gave 1 million dollars away.
(verb) (particle)

In English, many phrasal verbs are idiomatic; you can't understand the meaning of the whole from the parts. *Work out* means "exercise", and *give away* means "give something as a gift."

II. Phrasal verbs fall into different categories.

a. Some phrasal verbs are *transitive*; others are *intransitive*.

Transitive phrasal verbs take a direct object.

I cut off my hair.
He gave away his old bike.

Intransitive phrasal verbs do not take an object.

I like to work out.
Jaime is really growing up.

b. Some transitive phrasal verbs are *separable* (that is, the object can come between the two parts of the verb); others are *inseparable*.

Separable phrasal verbs	Inseparable phrasal verbs
cut off	get over
<i>I cut off my hair.</i>	<i>She can't get over her cold.</i>
<i>I cut my hair off.</i>	<i>She can't get over it.</i>
<i>I cut it off.</i>	
give away	look for
<i>He gave away his bike.</i>	<i>I'm looking for my cat.</i>
<i>He gave his bike away.</i>	<i>I'm looking for it.</i>
<i>He gave it away.</i>	

When a phrasal verb is *separable*, you can put a noun between the verb and the particle or after the particle. If you use a pronoun (*he, she, it, we, you, they*), the pronoun must go between the verb and particle. If a phrasal verb is *inseparable*, the noun and pronoun always come after the particle.
